The Course

Tree planting is not enough, and greenhouse gasses are at a 4.5 million-year high. If you are keen on creating a more sustainable future for the next generation, and creating positive change, this course will teach you all about the principles of climate change so you can drive positive change and become 'greener' in the workplace and at home. The qualification also covers the advantages of renewable energy and how to reduce energy consumption and carbon footprints for a better world.

Entry Requirements

There are no formal entry requirements for this course.

Time Required on Campus

Distance Learning/ Tutor assistance available.

Clothing, Equipment and Additional Costs

> More information coming soon.

Progression
