

Stepping Forward: Health and Social Care

Welcome to Health and
Social Care

Health & Social Care

Congratulations, you have been offered a place on a Health and Social Care programme.

As part of our transition programme, we wanted to offer you an insight into the Health and Social Care programme of study which you will be completing in September.

During this time of uncertainty we wanted to give you some tasks to focus your attention on and give you something to complete after the long period of time which you have not been in education for.

Whilst it is not compulsory that you complete any of these tasks set, we believe that it will be beneficial for you to complete these in readiness for your studies in September.

All of the tasks set will feed into the work which you are going to be completing over the next 2 or 3 years with us here at Bishop Burton College.

Task 1: What do I want to be when I grow up.....

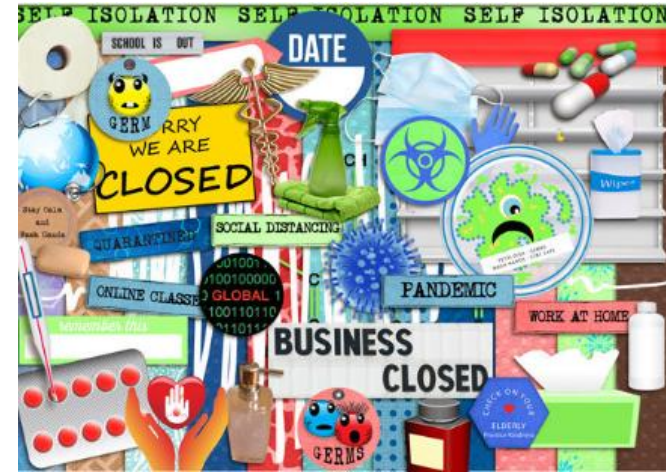

1. Create a roadmap of where you want to be in five years time. (your chosen profession) If you are interested in nursing look at the different aspects of nursing (adult, child and mental health)
2. What do you need to do to get there?
3. What grades do you need?
4. What are the main roles and responsibilities?
5. What other information can you find about your chosen job role?

Research three other job roles within Health and Social care and complete tasks 2, 3, 4 & 5

Task 2: Covid 19

Covid 19 is one of the biggest events to affect the Health and Social Care industry this century and probably within our lifetime.

- Produce a fact file/scrap book saving all of the information which you can find – relating to Health and Social Care.
- Produce a timeline of events
- How did the UK respond to the pandemic compared to other countries?
- *This can be online or paper based.*

Task 3: The NHS

What do you actually know about the NHS?

Undertake research into the NHS:

- When was the NHS formed?
- Why was it formed?
- What happened pre NHS?
- Structure of the NHS
- Different job roles within the NHS
- What part as the NHS played in Covid 19?
- Any other interesting or useful information

Create a detailed PowerPoint into the NHS in readiness for you starting in September.

Challenge: Can you complete an A-Z of different job roles within the Health and Social Care Sector?
