

Careers Access Policy

Bishop Burton College and Riseholme College provider access policy

Bishop Burton College and Riseholme College are committed to providing all students with comprehensive advice and guidance regarding progression routes beyond further and higher education.

Opportunities for access

The college runs a number of events and activities throughout the year, where providers and employers can come onsite and speak to students.

Each department hosts a progression evening, giving students the opportunity to assess their post college options.

Careers and progression related activities are held during National Careers Week in March.

Workshops are bookable throughout the year, offering advice and guidance around different aspects of careers.

If you would like further information about other areas that you can get involved in, please see the Careers Programme published on the website.

Please view our Safeguarding Policy for more information about access to the students and college sites.

Additional Information

Any provider that is interested in attending a careers event should contact our Careers Lead by emailing careers@bishopburton.ac.uk.
