

Campus:	Bishop Burton & Riseholme	Date:	August 2021	Completed By:	Colin Brighton
Department:	HR				
Risk Assessment:	<p>Covid-19 (Coronavirus) pandemic</p> <p>Covid-19 is an illness that can affect your lungs and airways. It is caused by a virus called Coronavirus. Symptoms can be mild, moderate, severe or fatal.</p> <p>This is a college generic Risk Assessment for dealing with the current COVID-19 situation in the workplace. It is not likely to cover all scenarios and each Head of Department has carried out a department specific assessment considering their own unique circumstances.</p> <p>Lincolnshire County Council health protection team were contacted for support and advice when making this COVID risk assessment</p>			Reference No:	CV03

Keeping up to date with official guidance			
Lack of up to date information regarding the virus	<p>Staff</p> <p>Students</p> <p>Customers</p> <p>Contractors</p>	<ul style="list-style-type: none"> • Government advice regularly checked and followed - www.gov.uk • NHS advice regularly checked and followed - www.nhs.uk • Department for Education advice regularly checked and followed • All staff are made aware by college e-mail of the increased risk of the new variant of the virus and the heightened risk of virus spread within the college. Communication regularly sent to all staff to reiterate the importance of maintaining the Government guidance. 	

List significant hazards	List groups of people who are at risk from the significant hazards identified?	List existing control measures or note where the information may be found	List actions for risks which are not adequately controlled
--------------------------	--	---	--

Preventing the spread of Covid-19 (Coronavirus) in the building			
Lack of hand washing facilities leading to increased risk of spread of bacteria/virus	Staff Students Customers Contractors	<ul style="list-style-type: none"> • Hand sanitation points provided around the campus • Hand soap dispensers kept refilled • Hand dryers maintained in working order • Paper towels provided where required • Hot water system maintained to provide constant supply • Hand washing signage in place 	
Getting or spreading coronavirus by not washing hands or not washing them adequately	Staff Students Customers Contractors	<ul style="list-style-type: none"> • Follow HSE guidance on cleaning, hygiene and hand sanitiser • Water, soap and drying facilities at wash stations. Hand sanitisers strategically placed around the college campus where people can't wash their hands • Information/signage on how to wash hands properly and display posters • Self-check of skin for dryness and cracking and to report if there is a problem 	
Lack of knowledge and guidance from the Government in the Education sector	Staff Students Customers Contractors	<ul style="list-style-type: none"> • https://www.gov.uk/government/publications/safe-working-in-education-childcare-and-childrens-social-care/safe-working-in-education-childcare-and-childrens-social-care-settings-including-the-use-of-personal-protective-equipment-ppe#aerosol-generating-procedures-agps • Department for Education advice regularly checked 	

List significant hazards	List groups of people who are at risk from the significant hazards identified?	List existing control measures or note where the information may be found	List actions for risks which are not adequately controlled
		<p>and followed</p> <ul style="list-style-type: none"> • https://www.gov.uk/government/publications/coronavirus-covid-19-maintaining-further-education-provision/further-education-covid-19-operational-guidance • https://www.gov.uk/government/publications/what-parents-and-carers-need-to-know-about-early-years-providers-schools-and-colleges-during-the-coronavirus-covid-19-outbreak/what-parents-and-carers-need-to-know-about-early-years-providers-schools-and-colleges-in-the-autumn-term 	
Poor workplace ventilation leading to risks of coronavirus spreading	<p>Staff Students Customers Contractors</p>	<ul style="list-style-type: none"> • Follow HSE guidance on heating ventilation and air conditioning (HVAC) • Fresh air is the preferred way of ventilating the workplace. Open windows and doors (that are not fire doors) to aid ventilation. • Estates department maintain air circulation systems in line with manufacturers' recommendations • Switch heating ventilation and air conditioning (HVAC) systems to draw in fresh air where they can be, rather than recirculating air • Air extraction throughout most buildings, some areas it is air recycling but these also have air extraction in so they draw in fresh air. 	
Exposure to workplace hazards because it isn't possible to get	<p>Staff Students</p>	<ul style="list-style-type: none"> • Estates domestic department to keep PPE supplies under review to prevent running out 	

List significant hazards	List groups of people who are at risk from the significant hazards identified?	List existing control measures or note where the information may be found	List actions for risks which are not adequately controlled
personal protective equipment (PPE)		<ul style="list-style-type: none"> PPE to be worn by staff carrying out First Aid or caring for any individual suspected of having COVID-19 while they await collection 	
Not wearing face coverings where they are required	<p>Staff Students Customers Contractors</p>	<ul style="list-style-type: none"> All staff and students are expected to wear a face covering in all communal areas of the campus (unless exempt) – this includes all catering outlets, the LRC and whilst moving around the campus, indoors. Students are not expected to wear face coverings in classrooms, but may do so if they wish and feel more comfortable in doing so. The wearing of face coverings is not expected in classrooms, where-as it is in communal areas. This is because in classroom settings there is less interaction and close contact. Face coverings to be worn in crowded and enclosed spaces where you come into contact with people you don't normally meet. 	<p>The reintroduction of face coverings for students or staff may be advised by Public Health for a temporary period in response to particular localised outbreaks, including variants of concern. We will be advised that face coverings should temporarily be worn in communal areas or classrooms (by pupils, staff and visitors, unless exempt).</p>
Staff, students, customers presenting symptoms whilst in the facility			
People displaying symptoms of COVID-19	<p>Staff Students Customers</p>	<ul style="list-style-type: none"> Any symptomatic person will be asked to leave the campus, self-isolate and get a PCR test. Government guidance followed 	

List significant hazards	List groups of people who are at risk from the significant hazards identified?	List existing control measures or note where the information may be found	List actions for risks which are not adequately controlled
	Contractors	<ul style="list-style-type: none"> • East Riding of Yorkshire Council – suspected outbreak/positive test response protocol in place • Local COVID response team in place. • DJ3 to be used for isolation until the student can be collected which has separate toilet facilities, windows should be opened for ventilation. Sledmere accommodation block to be used for residential students. • Rooms available at Showground campus. 	
Lack of Risk communication	Staff Students Customers Contractors	<ul style="list-style-type: none"> • Senior team to co-ordinate monitoring government and other advice and guidance. • Different communication tools and technologies are utilised to enable risk communication messages to reach a variety of audiences – website, i-learn, staff bulletin, e-mail, posters and signage. • College to notify Public Health England authorities about COVID-19 cases • RIDDOR reporting in place. • Regular contact with line manager 	
High risk employees / students (as defined by government, including pregnant, those with underlying health issues, employees over the age of 70 years)			
Those employees / Students who are at higher risk from contracting Covid-19 – clinically vulnerable, clinically extremely vulnerable	Staff Students	<ul style="list-style-type: none"> • Government guidance followed – links below • Individuals to limit the close contact they have with those they do not usually live with in order to reduce the risk of catching or spreading COVID-19, particularly if they are clinically extremely vulnerable. It is important to respect and be considerate of 	

List significant hazards	List groups of people who are at risk from the significant hazards identified?	List existing control measures or note where the information may be found	List actions for risks which are not adequately controlled
		<p>those who may wish to take a more cautious approach as restrictions are lifted.</p> <ul style="list-style-type: none"> • https://www.gov.uk/government/publications/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19 • Women less than 28 weeks pregnant with no underlying health conditions will have an individual risk assessment and will only continue to work if the assessment advises that it is safe to do so. • Women more than 28 weeks pregnant or with underlying health conditions will have an individual risk assessment and the college will ensure they are able to adhere to any active national guidance on social distancing and/or advice for pregnant women considered to be clinically extremely vulnerable (this group may previously have been advised to shield).
